Request Description

Short Description : N/A

The Missouri Coalition for the Environment would like the Work Plan for the "Supplemental Supplemental Feasibility Study" (SSFS) currently being conducted by the potentially responsible parties at the West Lake Landfill Superfund Site in St. Louis County, Missouri. EPA Region 7 Superfund staff have said at several meetings the Supplemental Supplemental Feasibility Study is currently being conducted, which leads MCE to believe there is a work plan that should be made available to the public. Most recently at the May 29, 2014 CAG meeting, EPA Region 7 Project Manager Dan Gravatt confirmed the SSFS is being conducted.
